

MTHOBISI NXUMALO

Full Stack Developer

Durban, KwaZulu-Natal, South Africa | 071 927 9462 | mthobisinx30@gmail.com
github.com/mthobisi30 | portfolio-gvr2.vercel.app | linkedin.com/in/mthobisi30

PROFESSIONAL SUMMARY

Full Stack Developer with production-grade experience building end-to-end web, mobile, and enterprise applications across manufacturing, insurance, and e-commerce domains. Proficient in React / Next.js, TypeScript, Python / Flask, PostgreSQL, Prisma, Docker, and Coolify. Experienced across the complete SDLC — from requirements analysis and system architecture through to containerised deployment and database administration. Proven ability to operate as a sole developer, managing multiple workstreams independently while delivering robust, scalable, and maintainable systems.

PROFESSIONAL EXPERIENCE

Full Stack Developer (Sole Developer)

Sep 2025 – Present

Wesant Manufacturing / Vision Elevators · Pinetown, KwaZulu-Natal

- Design, develop, and maintain all internal and external web and mobile applications as the sole developer, with full ownership of architecture, delivery, and the complete SDLC.
- Build responsive, performant web applications using Next.js, React 18, and TypeScript following modern component-based architecture and WCAG accessibility standards.
- Develop cross-platform mobile applications with Flutter / Dart (Android & iOS) and native Android applications in Kotlin.
- Serve as primary DBA for PostgreSQL and Microsoft SQL Server — schema design, query optimisation, indexing strategies, and automated backups.
- Implement RBAC and authentication flows (JWT / OAuth) across all systems to ensure secure and compliant data access.
- Deploy and manage production applications using Docker on self-hosted Coolify infrastructure; maintain CI/CD pipelines, uptime, and system monitoring.
- Translate business stakeholder requirements into technical specifications and user-facing features.

Learner — IT & Systems Support

Jan 2024 – Dec 2024

Hamtern Financial Services · Bryanston, Gauteng

- Implemented end-to-end workflow automation using Microsoft Power Platform (Power Automate, Power Apps, Power BI), reducing manual administrative effort across departments.
- Developed Python scripts for data extraction, transformation, and automated reporting pipelines.
- Supported IT infrastructure rollouts, user training, and ITSM processes; gained hands-on exposure to enterprise ticketing systems and IT service management best practices.

KEY PROJECTS

Enterprise Resource Planning (ERP) System

Stack: Python · Flask · PostgreSQL · React · REST API | [erp-system-woad.vercel.app](#)

Comprehensive manufacturing ERP integrating Inventory Management, HR, and Production Planning into a unified interface. Features real-time stock tracking with automated low-stock procurement triggers, employee records management, production scheduling, and department-level RBAC.

Unified Insurance System

Stack: Next.js · TypeScript · PostgreSQL · Prisma ORM · shadcn/ui | [unified-insurance-system.vercel.app](#)

Multi-tenant operations platform centralising policy management, claims processing, client document storage, and task coordination. Features full-text email archiving, drag-and-drop Kanban board, automated compliance reporting, and secure document upload with granular access controls.

ElevateTech Online Store

Stack: Next.js · React 18 · TypeScript · PostgreSQL · Prisma · Stripe · Docker · Coolify | store.elevatetech.biz

Custom e-commerce portal for ElevateTech's parts catalogue and order workflow. Stripe payment integration, role-based dashboards, and automated inventory sync via cron jobs. Self-hosted on Coolify with Docker containers and zero-downtime releases.

ElevateTech Product Information Management (PIM) System

Stack: Next.js · React 18 · TypeScript · PostgreSQL · Prisma · Docker · Coolify | pim.elevatetech.biz

Internal PIM system for cataloguing, versioning, and publishing structured product data. Features bulk CSV import/export, change-history audit trail, rich text editor, and category/tag taxonomy management on a Dockerised Coolify stack with automated database migrations.

TECHNICAL SKILLS

Frontend & Mobile	Next.js, React 18, TypeScript, JavaScript (ES6+), Flutter, Dart, Kotlin, Tailwind CSS, shadcn/ui, HTML5, CSS3, Responsive Design, WCAG Accessibility
Backend & Systems	Node.js, Python, Flask, Django, C#, ASP.NET Core, C++, REST API Design, JWT / OAuth / RBAC, Gunicorn, MVC Architecture
Databases	PostgreSQL, Microsoft SQL Server, MongoDB, SQLite, Prisma ORM, Entity Framework, Schema Design, Query Optimisation, Data Migrations
DevOps & Cloud	Docker, Coolify (Self-Hosted PaaS), GitHub Actions, CI/CD Pipelines, Microsoft Azure, Vercel, Git & GitHub
Enterprise Tools	Microsoft Power Platform (Power Automate, Power Apps, Power BI), UiPath (RPA), Postman, API Testing, Microsoft Office Suite
Practices	Agile / Scrum, Sprint Planning, SDLC, Requirements Analysis, System Architecture, Code Review, Technical Documentation

EDUCATION

Bachelor of Science in Information Technology	2020 – 2023
North-West University · Potchefstroom, North West	
Computer Science · Software Engineering · Databases · Networks · Systems Analysis	
Short-Term Insurance (NQF 4)	2024
Apex Academy · South Africa	
Insurance Principles · Risk Management · Compliance	
National Senior Certificate (Matric)	2015 – 2019
King Edward VII School · Johannesburg, Gauteng	

CERTIFICATIONS

Diploma in CyberSecurity — Alison	2024
Responsive Web Design Certification — freeCodeCamp	2023
JavaScript Algorithms and Data Structures Certification — freeCodeCamp	2023
